- Price: How much are customers willing to pay? What is the perceived value?

with consumer expectations and competitive dynamics.

Extensions and Modern Adaptations:

In the digital age, the 4 Ps have expanded into 7 Ps, adding People, Process, and Physical Evidence, especially relevant to service marketing. This evolution reflects Kotler's recognition of the changing marketing landscape.

3. Segmentation, Targeting, and Positioning (STP)

Kotler championed the importance of identifying specific customer segments, choosing the most promising target markets, and positioning offerings to resonate uniquely with those segments.

- Segmentation: Dividing the market into distinct groups based on demographics, psychographics, geographic, or behavioral factors.
- Targeting: Selecting which segments to serve.
