Understanding Prepositional Phrases: Fundamentals and Definitions

What Are Prepositional Phrases?

A prepositional phrase is a group of words that begins with a preposition and ends with the object of the preposition, which is typically a noun or pronoun. This phrase functions as a modifier within a sentence, providing additional information about time, location, direction, manner, or other relationships.

Example:

- The book **on the table** belongs to Sarah.
- She arrived **after the show**.

In these examples, "on the table" and "after the show" are prepositional phrases that clarify where the book is or when she arrived.

The Structure of Prepositional Phrases

Prepositional phrases generally follow this structure:

Preposition + Object of the Preposition + Optional Modifiers

- Preposition: Words like in, on, at, by, with, about, under, over, during, etc.
- Object of the Preposition: Usually a noun or pronoun that the preposition governs.
- Modifiers: Words that describe or specify the object, such as adjectives, articles, or other descriptive words.

Example:

- Under the old wooden bridge ? "Under" (preposition), "bridge" (object), "the old wooden" (modifiers).
